

BACK-END DEVELOPER

Doost is a tech-start-up company that specializes on digital services backed by Eureko Sigorta and founded with the desire to 'go beyond insurance'. On the way to perfect our work, we see a future full of wonderful misfortunes, lucky mishaps, and healthy trials.

We started our journey by focusing on car services. In order to solve the needs and problems of our customers regarding their vehicles, we are constantly developing something new with hardwork every day and improving our mobile application, website and strengthen our cooperation with providers. We are bringing up-to-date technology to car industry and we are growing rapidly.

We are a digital start up with a big vision. We try to transform people's approach on how they are looking after their assets, themselves and their loved ones with offering service-oriented digital products whereas making valuable services accessible and affordable to all.

Although doost has started its operations in the nearpast, it is backed up by and takes its power from one of the world's largest insurance leader Achmea group based in the Netherlands and a respected member of the Turkish insurance sector Eureko Sigorta.
