

DOOST - VISUAL DESIGNER

Visual Designer

Doost is looking for a talented Visual Designer to create winner visual concepts and guide a team of visual designers throughout various digital projects across different platforms, and for clients at different geographic locations.

Candidates are expected to have the following qualities:

- A bachelor or master degree in a visual-design-related field
- Fair command of written and spoken English
- A portfolio showcasing relevant digital service and product designs or a documented interest in interaction design
- Being self-motivated and proactive in defining and meeting deadlines
- A good team player
- Elaborate visual communication, typography, iconography and illustration skills
- Knowledge of Sketch, Zeplin, Invision, Keynote and Principle, or enthusiasm to learn
