- Follow up the implementation plan for each sub workstream in the region with Business Integrator
- Coordinate and optimize the cross workstream activities to avoid clashing actions
- Follow up statues and flag the impact of potential delays on the other workstreams, initiate mitigation actions
- Follow up resource need for each stage and ensure the most optimal set up
- Create regular status reports and collect/ record and report any information/data required by the project and/or the regional SC team

Responsibilities and accountabilities:

- Record, report TSA statues on time in full
- Call together and lead relevant meetings both to TSA exits and ekaterra establishment

- TSA charge control together with the regional / global SC finance teams, escalate to regional SC Head as needed
- Record and report ekaterra establishment related actions, statuses as per required by the global SC Workstream Lead and/ or by the regional SC Head
- Coordinate X-workstream actions, escalate potential clashes for mitigating actions
- Organize meetings within and outside the region on arising related topics.

Required skills and experience:

- Project management skills and experience on transformation projects with multiple stakeholders
- Working knowledge/ good understanding on SC functions from sourcing via make to deliver
- Experience on relevant Microsoft Office Apps (except, MSPProject, MSTeams, ppt, etc.)
- Knowledge of Python, C#

Desirable skills and experience:

- Experience with managing complex business transformation programmes, especially in global carve-out and Transitional Service Agreement exit scenarios, and working together with different levels of business stakeholders globally
- International experience e.g. working with diverse markets and cultures and ability to adapt and be culturally aware to achieve results
- Experience of working in Unilever i.e. familiar with Unilever business scope and existing data models and processes

Personal attributes:

- Organized, accurate and punctual
- Decisive and pragmatic to find most suitable solution in limited time and resource available
- Ability to work with a wide range of stakeholders,
- Excellent written and verbal communication skills,
- Able to deal with the pressures and uncertainties of a global transformation programme, in the context of business separation and TSA exits
