As human interaction with complex devices and terabytes of data becomes more personal and necessary, the role of the designers become significant. Designers should think at all layers, from the ideation phase of a product to how users emotionally connect with the product.

"The next big thing is the one that makes the last big thing usable." - Blake Ross

## DESIGNER COMMUNITY AWAITS YOU!

Designers have the responsibility for creating seamless experience for the end user through simple yet powerful design solutions.

You have a mastery of fundamental visual and interaction design disciplines considered as best industry practices and have an exceptional eye for pixel-perfect detail.

You will raise the bar on the user experience through continuously obsessing over the end user's needs and innovating on behalf of them.

As a designer, you are expected to focus on the optimization of the experience at each user interaction.

Do you enjoy challenging the status quo and bringing the next level experience to the users?

If yes, then take the next step and put your creative career in motion.

Whether we approach you about a specific opportunity, or you contact us to share your biography and career ambitions, we want you to have a constructive experience of engaging with Profil International.

Profil International is Turkey's premier human resources management consultancy firm having pioneered and redefined human resources management consulting principles, practices and standards in Turkey.

As a designer you enjoy to take ownership of user research, surveys, and interviews, and translate them into user stories, sitemaps, mockups, and prototypes.

Join our community of designers who enjoys challenges and enjoy delivering best user experience through continuous iteration.
